

ELTETE U-PROFILES

▶ FOR INNOVATIVE AND ENVIRONMENTALLY FRIENDLY PACKAGING

We can provide a wide range of U-profiles with several dimensions and colour options, even with printing.

Flooring manufacturers can switch from soft and complicated boxes to rigid U-profiles.

Laminate and furniture producers have noticed the advantages of U-profiles.

As the current trend in packaging is to eliminate unnecessary materials and find a green solution, through product development we are trying to help our customers reach that goal.

The U-profile is a 100% cartonboard product designed to protect surfaces from scratches and from heavy impact. The dimensions and strength can be chosen from a wide range according to the need.

Naturally the package still has to look appealing, so we can provide the product in brown or white and even with printing.

- to protect delicate surfaces
- to prevent damage caused by heavy impact
- to support the overall package
- to separate into smaller units
- 100% recyclable

B with PE-foam

► Standard range:

with equal sides

with unequal sides

► Sizes

A mm	B mm	C, C ¹ or C ² mm	D mm
50-7000	20-200	20-100	1-5

$$C^1 + B + C^2$$

Minimum60 mm

Maximum400 mm

N.B.

B is an inside measurement, C¹ and C² are measured from the outside.
